Malcolm Coulthard
Centre for Forensic Linguistics
Aston University
Session development

• Part I: The forensic linguist’s achievements
  – Conceptual and methodological context of real forensic cases

• Part 2: Examples of Linguists’ Achievements
  – Plagiarism
  – Authorship

• Part 3: Challenges for computerized analysis
  – Possible collaboration of forensic and computational researchers
Part 1

The forensic linguist’s achievements

The conceptual and methodological context of real forensic linguistic cases
Forensic Linguistics

• Language of the Law

• Language of the Court

• Language as Evidence
Language as Evidence
The expert witness in court

• **Tasks:**
  – What a text, either spoken or written, says.
  – Who is the author of that text (plagiarised or original).
  – What is the linguistic profile of a text.

• **Research domains**
  – Forensic voice comparison leading to reliable speaker identification (Forensic phonetics & acoustics).
  – *Forensic written text comparison leading to*
    • *reliable authorship attribution.*
    • *reliable plagiarism detection.*
  – Trademark litigation.
Language as Evidence
Premises and assumptions

– Language provides oral and written information of several kinds.

– The linguistic production of individual speakers and writers can reveal an individual’s socio-individual and socio-collective traits.

– Each individual has an idiosyncratic idiolectal style, which has to do with
  – a) how a language, shared by lots of people, is used in a distinctive way by a particular individual (Turell 2010).
  – b) the speaker/writer’s production, which appears to be ‘individual’ and ‘unique’ (Coulthard 2004).
  – c) Halliday’s (1989) proposal of ‘options’ and ‘selections’ from these options.
Language as Evidence
Object of Study

• Language as it occurs in real forensic contexts:
  – **Real FL case data**: legal investigative proceedings

• Language as it occurs in the real world:
  – **Real W text data**: linguistic research leading to controlled experiments, and thus to more validity and reliability in both plagiarism detection and authorship attribution.
## Language as Evidence

The nature of the linguistic material involved

### Types of text

<table>
<thead>
<tr>
<th>Plagiarism studies/literary authorship</th>
<th>Criminal authorship</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Long</td>
<td>- Short</td>
</tr>
<tr>
<td>- Non-spontaneous</td>
<td>- Incidental and spontaneous</td>
</tr>
<tr>
<td>- Addressed to a big audience</td>
<td>- Addressed to a limited audience</td>
</tr>
<tr>
<td>- Planned</td>
<td>- Production limited by space and time</td>
</tr>
</tbody>
</table>

- **Context of production:**
  - Minimal proportion of an individual’s style
  - Inadequacy of linguistic fingerprint

CLEF 2011 - PAN'5 2011 Lab
Forensic Linguistics Panel
Language as Evidence Models/Hypotheses

• Theory of Language Variation

  a) inter-writer rather than intra-writer variation.
  b) Idiolectal style
    • quite stable throughout time.
    • not so stable according to textual genre.
Language as Evidence
Required methodology

• Qualified opinions:
  – based on scientific methodologies.
  – fundamenteled on both:
    • **Qualitative** methods (derived from the linguist’s knowledge).
    • **Automatic/semi-automatic** and **Quantitative** methods (to introduce reliability and accountability).
Part 2

Examples of Linguists’ Achievements
Uniqueness of Encoding: Plagiarism

“Plagiarism is a form of cheating in which the student tries to pass off someone else's work as his or her own..... Typically, substantial passages are ‘lifted’ verbatim from a particular source without proper attribution having been made.”
Discuss the kind of policy a primary school should have towards bilingualism and multilingualism

It is essential for all teachers to understand the history of Britain as a multi-racial, multi-cultural nation. Teachers, like anyone else, can be influenced by age old myths and beliefs. However, it is only by having an understanding of the past that we can begin to comprehend the present.
a. It is essential for all teachers to understand the history of Britain as a multi-racial, multi-cultural nation. Teachers, like anyone else, can be influenced by age old myths and beliefs. However, it is only by having an understanding of the past that we can begin to comprehend the present.

b. In order for teachers to competently acknowledge the ethnic minority, it is essential to understand the history of Britain as a multi-racial, multi-cultural nation. Teachers are prone to believe popular myths and beliefs; however, it is only by understanding and appreciating past theories that we can begin to anticipate the present.

c. It is very important for us as educators to realise that Britain as a nation has become both multi-racial and multi-cultural. Clearly it is vital for teachers and associate teachers to ensure that popular myths and stereotypes held by the wider community do not influence their teaching. By examining British history this will assist our understanding and in that way be better equipped to deal with the present and the future.
Plagiarism - UCAS Personal Statements

• 234 statements related a dramatic incident involving "burning a hole in pyjamas at age eight".

• 175 contained a statement which involved "an elderly or infirm grandfather".

• 370 statements contained a sentence including "a fascination for how the human body works..."
Example of a Personal Statement

Ever since I accidentally burnt holes in my pyjamas after experimenting with a chemistry set on my 8th Birthday, I have always had a passion for science. Following several hospital visits during my teenage years to explore my interest, the idea of a career that would exploit my humanity and problem-solving abilities always made medicine a natural choice.
Ever since I burnt holes in my dress after experimenting with my brother’s chemistry set when I was 10, I have always been passionate about the sciences. Following several visits to the local hospital during my teenage years as a result of minor accidents, the idea of a career that would help people always made physio-therapy a natural choice.
Uniqueness of linguistic encoding

Stat: I asked her if I could carry her bags
   Int: I asked her if I could carry her bags

Stat: I picked something up like an ornament
   Int: I picked something up like an ornament
   (Appeal of Robert Brown)

JENNY NICHOLL HISTORIC MESSAGES

Sum black+pink k swiss shoes and all the other shit like socks. We r going to the Indian. Only 16 quid. What u doin x

Yeah shud b gud. I just have to get my finga out and do another tape. Wil do it on sun. Will seems keen2x

Shit is it. Fuck. I can’t today. I’ve already booked to go bowling. Can’t really pull out. Wil go2shop and get her sumet soon. Thanx4telling me x

No reason just seeing what ur up2. Want2go shopping on fri and will’s on sun if ur up2it.

Sorry im not out2nite havent seen u 4a while. Aswel.ru free2moro at all x

No im out wiv jak sorry it took me so long I’ve had fone off coz havent got much battery

Only just turned my fone. Havent lied bout anything. No it doesn’t look good but ur obviously just as judgmental than the rest. Cu wen i cu & i hope its not soon

I havent lied2u. Anyway im off back2sleep

I know i waved at her we were supposed to go at 4 but was a buffet on later on so waited. Anyway he had a threesome it was great. Cu around

Im tiered of defending myself there’s no point. Bye

Happy bday! Wil b round wiv ur present2m0z sorry i cant make it2day. Cu2m0z xxx

SUSPECT TEXT MESSAGES

Thought u wer grassing me up. Mite b in trub wiv me dad told mum i was living didn’t giv a shit. Been2kessick camping was great. Ave2 go cya

Hi jen tell jak i am ok know ever 1s gonna b mad tell them i am sorry. Living in scotland wiv my boyfriend. Shitting meself. Dads gonna kill me. Mum don’t give a shit. Hope nik didn’t grass me up. Keeping phone of. Tell dad car jumps out of gear and stalls put it back in auction. Tell him i am sorry.

Y do u h8 me? I know mum does. Told her i was goin. I ain’t comin back and the pigs won’t find me. I am happy living up here. Every1 h8s me in rich only m8. I got is jak. Tell u couple wks tell pigs i am nearly 20. Ain’t comin back they can shite off.

She got me in this shit its her fault not mine. Get blame 4everything. I am sorry ok just had 2. I’ve shes a bitch no food in and always searching me room. Eating me sweets. Ave2 go ok i am very sorry x
Plagiarism by Intralingual Translation

With all of these problems it was little short of a miracle that the “stichting” board was ready to lay the cornerstone for the building in the summer of 1907 at the opening of the Second Hague International Conference. It then took six more years before the Palace was completed during which time there continued to be squabbles over details, modifications of architectural plans and lengthy discussions about furnishings. For ten years the Temple of Peace was a storm of controversy, but at last, on 28 August 1913, the Grand Opening ceremonies were held. (J F Wall, Andrew Carnegie)

The foundation stone was not laid until the summer of 1907, in nice time for the opening of the Second Hague International Conference. Actual construction of the palace took a further six years, delayed and exacerbated by constant bickering over details, specifications and materials. For an entire decade the Peace Palace was bedevilled by controversy, but finally, on 28 August 1913, the opening ceremony was performed. (J Mackay, A Life of Andrew Carnegie)
Authorship Attribution Extortion Case
Complementary Linguistic Evidence

• **Qualitative** textual analysis
• **Corpus linguistic analysis** of
  – grammatical evidence
  – sociolinguistic evidence
• **Statistical analysis** of sequences of linguistic categories.
Authorship Attribution Extortion Case

. Extortion found in one of a number of Spanish emails (DT@).

. Authorship denied later on.

. Supposedly sent to the company when also writing some faxes (NDTfax).

. Clear-cut authorship attribution context.

. Helping a Spanish civil court to decide whether the author of 4 NDTfax texts could also be the author of the DT@ texts, whose authorship this individual denied after he had been dismissed by his company for extorting them.

<table>
